THE UNI GRADUATE COLLEGE PRESENTS...

THE 12TH ANNUAL GRADUATE STUDENT SYMPOSIUM

WEDNESDAY, APRIL 3, 2019
11AM - 4PM
MAUCKER UNION
Welcome to the 12th Annual Graduate Student Symposium at the University of Northern Iowa!

The Symposium is a celebration of the scholarship and creative work from our graduate student community. Scholarship and creative work are cornerstones of graduate education and the Graduate College is proud to support our students in these endeavors. These ideas, projects, and performances contribute to knowledge and intellect on our campus, as well as enhance our local, regional, and global communities.

Today, students will showcase and, ultimately, defend their scholarship and creative work to other students, faculty, and staff. Their skills, expertise, and knowledge will be questioned in a supportive environment. The respectful, intellectual dialogue makes our campus richer, and develops transferrable skills for students to advance their professional goals. The poster presentations, oral presentations, and creative performances are the outcomes of many intangible elements, including hard work, perseverance, and the dedication from our students. I also want to acknowledge the countless hours of mentorship our excellent faculty provided to our student presenters and performers.

This signature event could not happen without the support of many people, including our faculty judges and Graduate College Staff. The biggest thank you is for our graduate students who are presenting and attending the 12th Annual Graduate Student Symposium.

Let us all celebrate their work,

Jennifer J. Waldron, Ph.D.
Dean of the Graduate College
