Engaging Students Through Global Collaboration in the Classroom

Presented by,

Dr. Leigh Zeitz

Associate Professor, Curriculum & Instruction

We live in a Global Society and we have the tools to bring the world into our classrooms. This might be as simple as Skyping with an expert or as complicated as co-teaching and collaboratively grouping with a distant class for a whole semester. This presentation will describe the basics of global collaboration, explore examples, and provide resources to use to connect with other educators. Bring your own stories of global connections and share them.
